

18TH CENTURY OAK DRESSER

SKU: GD1093

£0.00

A nicely proportioned 18th Century mixed hardwood oak dresser, the piece has a natural wear and has not been over polished during its life which gives it a wonderful natural feel with a warm tone.

The three plank pine back is simply irresistible and the single drawer spanning the width of the

unit is another unusual feature. The piece would have originally had glass doors to the top of the unit but it became popular to remove these during the late 19th century.

The piece features so many nice details, making this a wonderful piece of furniture with good storage.

Upper shelves measure - W104cm x D21.5cm / 41"x 8.5"
