

**1960S MID CENTURY BROWN LEATHER CHROME SWIVEL CHAIR BY SWEEDISH
DESIGNER ARNE NORELL FOR VATNE MØBLER NORWAY**

SKU: GD1372

£0.00

A beautifully made 1960s brown leather swivel chair by notable Swedish designer Arne Norell for Vante Møbler AS. A well crafted piece with heavy chrome base and high quality leather with hand stitching.

This high back version is very comfortable with soft leather arm supports on a sturdy chrome metal base. the chair is in very good order, there are some age related schuff to the leather, especially around the back but this gives the chair a nicely aged patina and great character. The swivel base is in excellent condition with a smooth action. The chrome is also in excellent condition, some of the chrome in the photos appears to have some distortion but this is just the reflection of the chrome.

A lovely high quality mid century designer piece.

Seat height 40cm / 16"

We pride ourselves on providing accurate photos and description, and all our pieces are ready to use.
