UPHOLSTERY ON CASTORS**

A very well presented antique country house open armchair, late 19th Century, in a lovely traditional tapestry style upholstery.

Well proportioned with swept open arms, and resting back, well sprung, firm and very comfortable. Standing on Walnut legs with ceramic castors, the frame is in very good condition. We think that the chair may have been re-upholstered at some point in its life but it been done very well and tastefully, keeping the piece looking very original.

A lovely piece full of character, charm & very much in the manner of Howard & Sons.

Seat Height = 43cm / 17"

A lovely individual Chair, in good clean condition, ready for installation.
