

BLACKSMITH MADE FIRE DOGS & BASKET

SKU: GD1142

£0.00

A very old pair of fire dogs, dating back to early 19th century. The basket looks to be a later addition, probably a replacement to the original, very heavy form and made by a blacksmith, nicely shaped with bowed bottom and barley twist center bar, constructed with traditional rivets.

The dogs are nicely tilted backwards which gives the basket a secure stance leaning back into a fireplace.

Suitable for a large opening over 2ft in width and 19" in depth.

Basket size is 24 3/4" x 15 3/4"
