

HUGE LEATHER MILL BASKET

SKU: GD1014

£0.00

A superb example of a very large Pig Skin Leather Mill Basket, displaying great colour and wear and full of character.

Despite the various tears and patchwork repairs the basket is in very sound strong condition, the upper section has its original steel bar running around the top edge and the base has two wooden skids.

An extremely rare item, English circa 1850s (possibly earlier)
