

OLD WOODEN TROUGH

SKU: GD1077

£0.00

Lovely old wooded trough

Salvaged from an old barn in mid-wales. The barn was built in 1860 and we believe this dates back to that period. The wood is a mix of pine and pitch pine and matched the timber beams inside the barn.

The woodworm is long gone but the piece has been fully treated, cleaned and waxed to preserve it as a decorative piece.
