

PRIMITIVE VERNACULAR BOX SETTLE FARMHOUSE BENCH WITH STORAGE

SKU: GD1305

£0.00

A rare and unusual primitive vernacular box settle with pull out bed compartment. A very early example made from solid pine, probably an old farmhouse or Shepherds bench, it has a pull out section which would have doubled up as a bed, the seat also lifts for access to the storage space.

In it's original green paint, it boasts a wonderful worn look with the old pine timber showing through. The back panel has turned spindles leading to the two arms which are nicely shaped and carved, it stands on solid square legs. Its a four plank settle, meaning that the seat, side panels and bottom are all single boards, another sign of its early heritage, where large single boards were used in furniture.

A large solidly made piece in very good original condition. The piece has been cleaned and is ready to use, we have purposely left the surface finish unwaxed to retain its originality.

Seat Height = 48cm / 19", Seat Depth = 48cm / 19"

Open Base Size = L164 x 74cm / 64.5" x 29"
